Bone Density and Geometry in Patients with Stroke: Relationship to Muscle Strength and Cardiovascular Health

Dr. Marco Pang

BScPT (Alberta); PhD Neuroscience (Alberta)
Assistant Professor
Department of Rehabilitation Sciences
The Hong Kong Polytechnic University

Date: 30th April 2008 (Wed)

Time: 12:30 - 2:00 pm

Venue: ST522, 5/F,
The Hong Kong Polytechnic University

Dr. Marco Pang obtained a BSc in Physical Therapy and a PhD in Neuroscience from the University of Alberta, Edmonton, Canada. He conducted the first clinical trial worldwide in examining the effects of a structured exercise program on bone health in the chronic stroke population.

His main research interests are bone health in neurological conditions, and neuro-rehabilitation. His current studies examine bone health in patients with Parkinson’s disease, and alterations of bone geometry in individuals with stroke. He has published a number of original research papers in highly-rated journals in the field, including Bone, Osteoporosis International, and Journal of Bone and Mineral Research.

Parking is available – please contact Miss Rosita Tam (E-mail: rsrosita@inet.polyu.edu.hk) for a parking voucher
Enquiries: Dr. Shamay Ng (Tel: 2766 4889)
Sandwiches, coffee and tea will be provided.
