Effect of Acu-TENS on Cardiopulmonary Conditions

Prof. Alice Y. M. Jones
Professor
Department of Rehabilitation Sciences
The Hong Kong Polytechnic University

Date: 20th December 2006 (Wed)
Time: 12:30 - 2:00 pm
Venue: ST522, PolyU

Professor Jones is the Professor of Physiotherapy in the Department of Rehabilitation Sciences, The Hong Kong Polytechnic University. She was admitted to the College of Australian Physiotherapists as a Fellow and awarded the title Specialist in Cardiopulmonary Physiotherapy. Currently she is also a Visiting Professor to the Leeds Metropolitan University in United Kingdom. Her research focus is in the area of critical care, rehabilitation of patients with pulmonary and cardiac disease, as well as effects of exercise on the cardiopulmonary and cardiovascular systems. Her talk will describe Acu-TENS as an alternative modality for the management of patients with pulmonary illness and post-cardiac surgery.
